How to Use a Curl Up Hair Styling Combo for Perfect Curls

If you have curly or wavy hair, you already know the struggle. Long routines, too many products, and still unpredictable results. Some days your curls look great, and other days they feel hard to manage. Most curl routines would be time-consuming and confusing, making you think perfect curls need hours of effort. The truth is, caring for your natural hair doesn't have to be complicated. With the right technique and thoughtfully formulated products, your curls can become softer, healthier, and beautifully defined.

At Curl Up, our goal is to make curl styling easy, quick, and stress-free. How do we make that possible? The answers are simple!! With our stylers—the Curl Defining Cream and Ultra Defining Gel. Designed to work together, giving your curls the perfect balance of moisture, definition, and hold.

Step-by-Step: How to Use the Curl Up Hair Styling Combo

Step 1: Gentle Cleansing

Begin with the Curl Moisturising Shampoo, a mild coconut-based cleanser that gently removes dirt and buildup without stripping your hair's natural oils. Made with **Argan oil and Chia seed extracts**, rich in antioxidants and vitamin E. Emulsify the shampoo with water, massage gently into the scalp using your fingertips, and rinse thoroughly. Allowing the lather cleanse the lengths naturally.

Step 2: Deep Conditioning

Follow with the Curl Hydrating Conditioner to add moisture and make detangling easy. Formulated with **Argan oil, Chia seed extract, and Flax seed extract**, it provides excellent slip for easy detangling while strengthening curls and reducing breakage. Apply to the lengths of your hair, avoiding the scalp, detangle gently, leave it on for a few minutes, and rinse well. Proper conditioning helps lock in hydration, reduce frizz, and improve curl elasticity.

Step 3: Style with Curl Defining Cream and Ultra Defining Gel

On soaking wet hair, apply the Curl Defining Cream section by section using the praying-hands or raking method. Infused with **Argan oil, Shea butter, and Flax seed extracts**, our CG-friendly leave-in cream delivers moisture, and soft definition while reducing frizz. Scrunch your curls upwards to encourage curl clumping and bounce.

Once the cream is evenly applied, layer the Ultra Defining Hair Gel on very wet hair to lock everything in. Formulated with Flax seed extract and Shea butter, the gel creates a light protective cast that holds curl shape, controls frizz. Scrunch your curls

upwards for better definition, then air dry or use a diffuser. Avoid touching your hair while it dries to prevent frizz. Once fully dry, gently scrunch your curls again to break the cast and have soft, beautifully defined curls. Together, the cream and gel work as **the best curl cream and gel for curly hair.**

Pro Tip:
Apply your styling products in sections rather than all at once. Divide your hair into 4–6 manageable sections and work the curl cream and gel through each section individually. This technique ensures even distribution, allows every curl to be properly applied, and results in getting more defined and soft curls.
